EXPERIENCE

Senior Technical Writer / Trainer & Team Lead

Annex Cloud · Permanent remote for a Pune-based organization · Feb 2022 — Present

- Owned API, product, release, knowledge-base, and enablement content across a multi-module SaaS platform.
- Led a Git/Markdown docs-as-code migration and established content governance for writers and trainers.
- Built self-service learning paths that reduced inbound support dependency by approximately 30%.
- Facilitated team agility as a Certified Scrum Master, managing daily Scrum calls, sprint planning, backlog grooming, and retrospectives to ensure predictable delivery of documentation and enablement outputs.

Business Associate

Infosys · Jan 2022 — Feb 2022

- Gathered and documented functional requirements, mapped workflows, and maintained internal knowledge repositories.
